Classification of Industries and Assessment Rates

Newfoundland and Labrador

2005
TABLE OF RATES

2005 Industry Assessment Rates

The rates provided in this booklet are the 2005 industry assessment rates per $100 of assessable payroll, except for logging, volunteer firefighters, ambulance operators, and fish purchasing. The minimum assessment for any employer during the calendar year 2005 is $50.

In determining the amount of assessable payroll for the year 2005, the earnings of each worker (for the whole or any part of the calendar year) are to be included up to a **maximum of $46,275**.

The industry base assessment rate may be obtained by reference to the alphabetical index.

Once registered, all employers are classified on the basis of industry for insurance purposes. The industry group collectively pays the cost of all injuries that arise within the industry group. For classification purposes, the groups must be sufficiently large to provide for an adequate spread of risk and some stability in the assessment rate.

For assessment purposes, employers are classified by the industry or industries in which they are operating represented by NIC codes (Newfoundland Industrial Classification codes). The classification encompasses all work incidental to the production of goods and services provided. Incidental is where an operation, regardless of whether separated by location or payroll, exists to service the prime industry of the firm. Separate NIC codes are not allowed if the operation or activity is a supportive, inescapable or an ancillary part of the firm's main industry. For example, a manufacturing firm which maintains a sales division or sales outlet to sell its own products is not accorded a separate sales category; rather the sales are considered an inescapable part of the firm's manufacturing operation.

Construction Industry Levy

The Newfoundland and Labrador Construction Safety Association (NLCSA) in partnership with the Commission, implements a levy on firms operating in the NIC codes associated with the construction industry. The levy provides funding for the NLCSA to work with industry to provide a positive safety culture.

Newfoundland Industrial Classification

Why do I pay the same rate for my office workers and for my shop workers?

Classifications are based on the complete industry rather than on occupations within that industry for a number of reasons:

Simplicity — Attempting to classify employees individually would mean vastly more complicated guidelines and reporting and auditing procedures. (Many occupations are difficult to categorize and many employees perform two or more functions within the same business). The result would be much higher administration costs which would be passed on to the employer.

The number of classifications and rates — Occupational rating would require far more classifications and assessment rates than there are in the current system. Each classification would include fewer employees and a less stable revenue base. This would result in widely fluctuating assessment rates. Classification by occupation would not change the cost of claims. The total cost within any particular industry would not change if the assessments for some occupations were reduced; however, the rates for other occupations within the industry would have to vastly increase.

Experience Rating Program

For individual employers, who are experienced rated, the assessment rate will differ from the industry rates quoted in this booklet. The maximum deviation from the base assessment rate is an increase of 40% or decrease of 20%.

Experience rating is designed to improve employer awareness of the importance of safety in the workplace and to achieve equity through the use of rewards and penalties based on the employer's own accident cost experience compared to the industry's average cost. For more information concerning the experience rating program, please call: (709) 778-1211.

Notice

The information contained in this booklet is for reference only. The *Workplace Health, Safety and Compensation Act*, along with its Regulations, constitute the official reference documents.

The Employer's Payroll Statement and Contractor's Report must be completed and returned on or before February 28, 2005.

Notice to Employers

1. If employers feel that they have been incorrectly classified, a detailed description of the type of industry in which they are operating must be sent to:

   Workplace Health, Safety and Compensation Commission
   Attn: Financial Analyst
   P O Box 9000, St. John's, NL, A1A 3B8
   Telephone: (709) 778-1189 or 1-800-563-9000 (in Newfoundland and Labrador)
   Fax: (709) 778-1110
   e-mail: assessments@whscc.nf.ca

2. It is the responsibility of the employer to advise the Financial Analyst, in writing, of a change in the main industrial undertaking of his/her operation.

3. Employers are required to report injuries to the Commission within three days of the injury. Forms can be faxed to (709) 778-1302.
